ARTICLE XXVIII:1 NEGOTIATIONS

Schedule CXXXVII - Grenada

The following communication, dated 30 September 2002, has been received from Grenada.

I have the honour to advise you that the Grenada Government has taken the decision to continue its process of structural reforms that will result in the elimination of the few remaining import licenses. We have also renewed our focus on the structural transformation of our economy through *inter alia* an emphasis on the agricultural development of certain industries of critical importance to our food security and rural development objectives.

Pursuant to this the Government of Grenada wishes to enter into negotiations with Members under Article XXVIII:1 to modify its concessions in the instance of the following headings: 02.07 (Meat of Edible Offal of the Poultry, fresh, chilled or frozen); 2203 (Beer, Malt and Stout).

These rates were bound in the Uruguay Round.

The Grenada Government is prepared to enter into immediate negotiations with interested Members with a view to withdrawal of these concessions in accordance with Article XXVIII:1. The relevant statistics¹ are annexed thereto.

¹ In English only.
