## **ARTICLE XXVIII:4**

### Schedule CXXVII - Grenada

#### *Request for authority to enter into renegotiations*

The following communication, dated 27 February 2002, has been received from Grenada.

\_\_\_\_\_

I have the honour to advise you that the Grenada Government has recently taken the decision to continue its process of structural reforms that will result in the elimination of the few remaining import licenses. We have also renewed our focus on the structural transformation of our economy through *inter alia* an emphasis on the agricultural development of certain industries of critical importance to our food security and rural development objectives.

Pursuant to this the Government of Grenada wishes to enter into negotiations with WTO Members under Article XXVIII to modify its concessions in the instance of the following headings: 02.07 (Meat of edible offal of the poultry, fresh, chilled or frozen); 2203 (Beer, malt and stout).

These rates were bound in the Uruguay Round.

I would be grateful if you would kindly bring this request to the attention of the Council for Trade in Goods (CTG) at its next meeting so that it may take the appropriate decision.

The Grenada Government is prepared to enter into immediate negotiations with the interested contracting parties with a view to modifying these concessions in accordance with Article XXVIII. The relevant statistics are annexed hereto.
