PART I - MOST-FAVOURED-NATION TARIFF

SECTION I - Agricultural Products

SECTION I - A Tariffs

1. The "final bound rate" of duty, if differing from the "bound rate at date of accession", will be implemented according to the date specified in the "implementation" column. The implementation column indicates the date, referring to 1 January of the year indicated, when the final bound rate will be achieved. Tariff reductions will be implemented according to the attached Staging Matrix in Annex I.
2. a) The People's Republic of China shall maintain its in-quota applied and bound rates (and, upon removal of the tariff-quota, its applied and bound rates) for HS 1514 (rape or colza (canola) oil and its fractions, whether or not refined, but not chemically modified) at a level equal to that for HS 1507 (soya-bean oil and its fractions, whether or not refined, but not chemically modified) and for HS 1205 (rape or colza (canola) seeds, whether or not broken).
b) China undertakes in principle to apply its tariff, both bound and applied rates, as well as other duties and charges, in such a way as to not cause distortions in the terms of competition between substitute products or competing suppliers. In this regard, there was particular interest in ensuring fair competition between rape (canola) seeds and soybeans, rape (canola) oil and soybean oil; flours and meals of oilseed and forage products (including lupines); forage products (including lupines) and flours and meals of soybeans; forage products (including lupines) and oil-cake and other solid residues of soybean; raw cane sugar and raw beet sugar, refined sugar artificial sweeteners and sugar substitutes; and wool and other competing fibres.
c) After the implementation period for HS 12141000 (lucerne (alfalfa) meal and pellets), the People's Republic of China shall maintain its bound and applied rates for HS 12141000 at a level equal to that for HS 2304 (oil-cake and other solid residues, whether or not ground or in the form of pellets, resulting from the extractions of soybean oil).
d) Malt (1107)- The People's Republic of China agrees that the applied tariff for malt will be no more than seven percentage points higher than the applied rate on barley (i.e. if the applied rate on barley is three percent, the tariff on malt will be no higher than 10 percent; if the applied rate on barley is one percent, the applied rate on malt will be no higher than 8 percent).
e) Barley - The People's Republic of China shall provide adequate advance notice of at least 3 months for increases in the applied tariff rate on barley, which now stands at 3 percent. The People's Republic of China shall provide stability by ensuring any changes in applied rates will be in place for a minimum of one year. Tariffs will be no higher than the tariff which applied when contracts were signed.
f) The People's Republic of China specifically agrees that coconut oil (HS 15131100 and HS 15131900) will be accorded treatment upon importation on terms no less favorable than that accorded to like, directly competitive or substitutable products imported from any WTO Member.
g) Feed peas (07131090)- will be granted parity with HS 2304 (oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of soybean oil.).

3. Except as specified in Section I-B, all products imported by non-state trading enterprises will be afforded no less favorable treatment than products imported by state trading enterprises, including but not limited to being subject to the same applied tariff and other duties and charges, inspection or quarantine requirements, application of the value-added tax, application of provincial taxes. All such imported products shall be accorded national treatment under Article III of GATT 1994, especially paragraph 4 thereof, in respect of their internal sale, offering for sale, purchase, transportation, distribution or use, including their direct access to end users.

4. Any enterprise possessing the right to trade (the People's Republic of China shall grant the right to trade state-traded agricultural products subject to a tariff-quota in Section I-B to any enterprises possessing the right to trade any product under Section 5 of the Protocol of Accession (i.e., possessing general trading rights), except for imports as specified in Section I-B reserved for state trading enterprises.) will be permitted to import products listed in Section I-B at the in-quota duty rate if the People's Republic of China increases the within-quota quantity to an amount in excess of that set forth in Section I-B for any year. Allocation of shares of such additional quota quantities to end users will be on the basis of first-come, first-served or the same method used for initial allocation of the product. The People's Republic of China shall publicly notify through the official journal the availability of additional quantities and the allocation procedures ten days in advance of their allocation and will notify the WTO Committee on Agriculture of the additional quantity and procedures in its annual tariff-quota notifications. Inquiries on the entities which received the allocation of the additional quantity can be made to the State Development and Planning Commission (SDPC) which will provide the information within 10 days.

5. See "Notes" at the end of this Section.
